How to install Oracle 10g

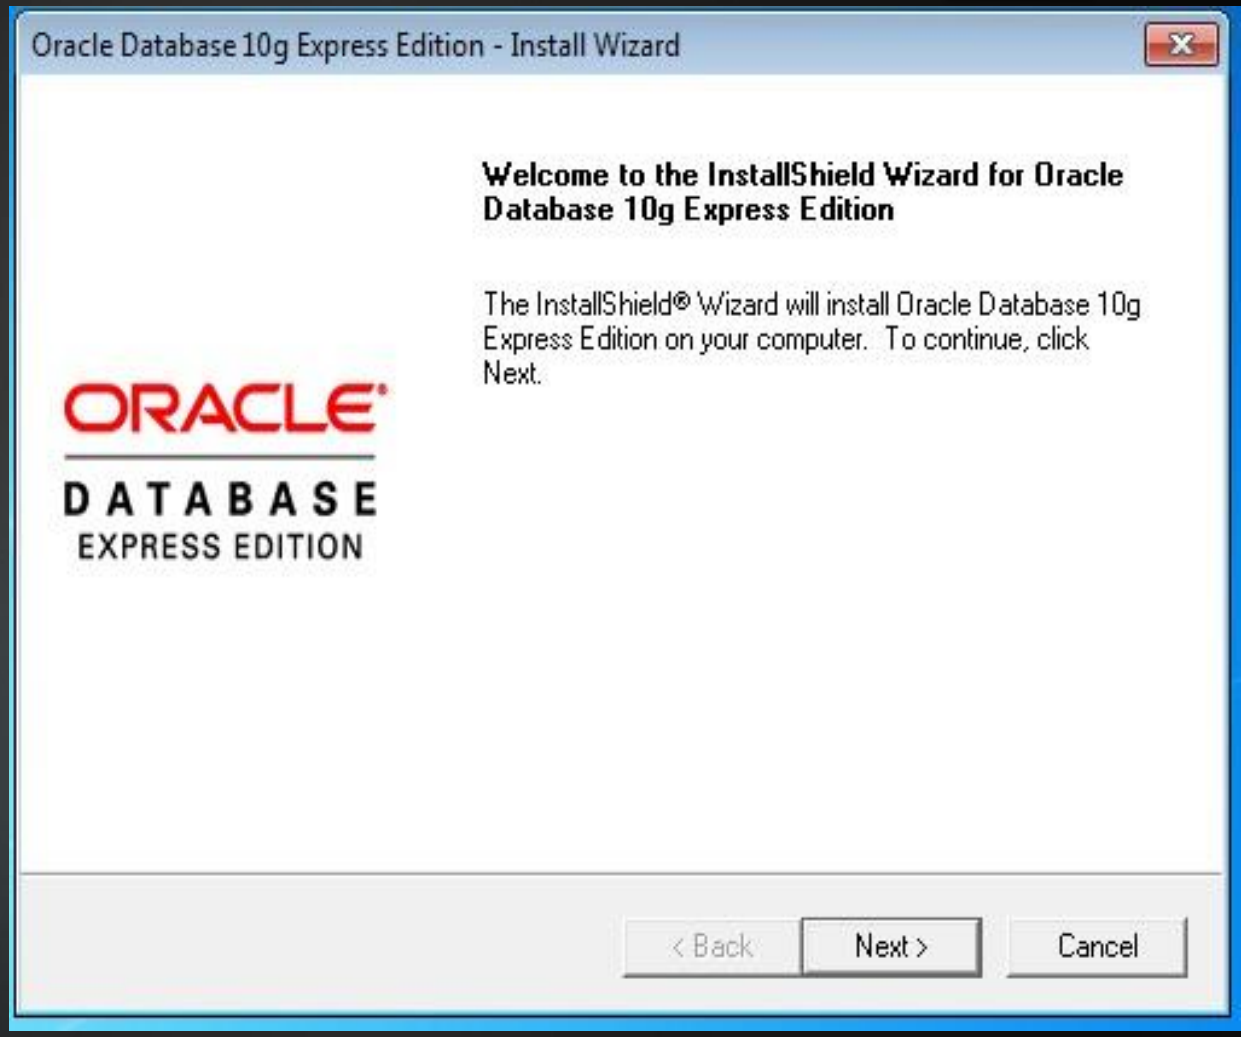
G. M. SHAHARIAR SHIBLI
LECTURER
DEPARTMENT OF CSE, AUST.

Step 1:

- Find a zip file named “Oracle 10g.zip”
- Extract the file.
- Run “OracleXEUniv.exe”

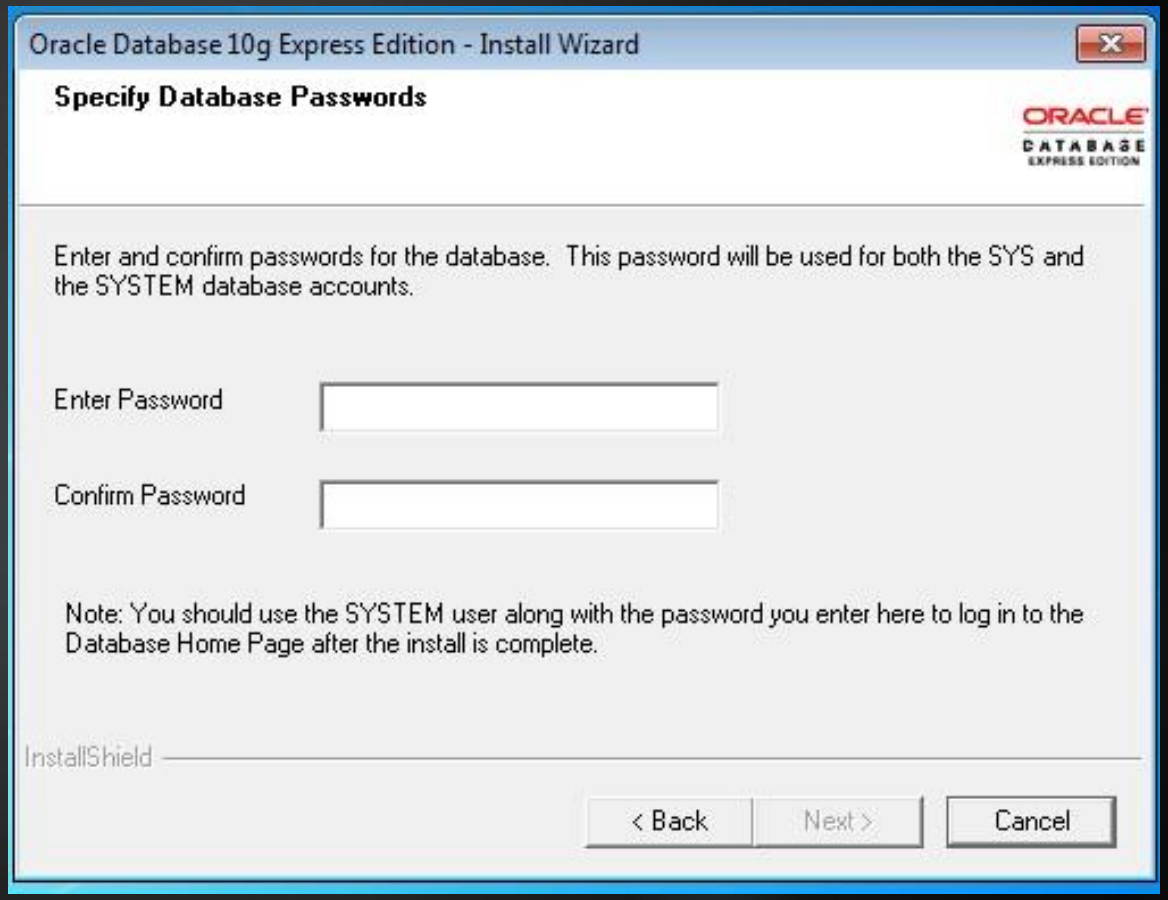
Step 2:

- Click Next



Step 3:

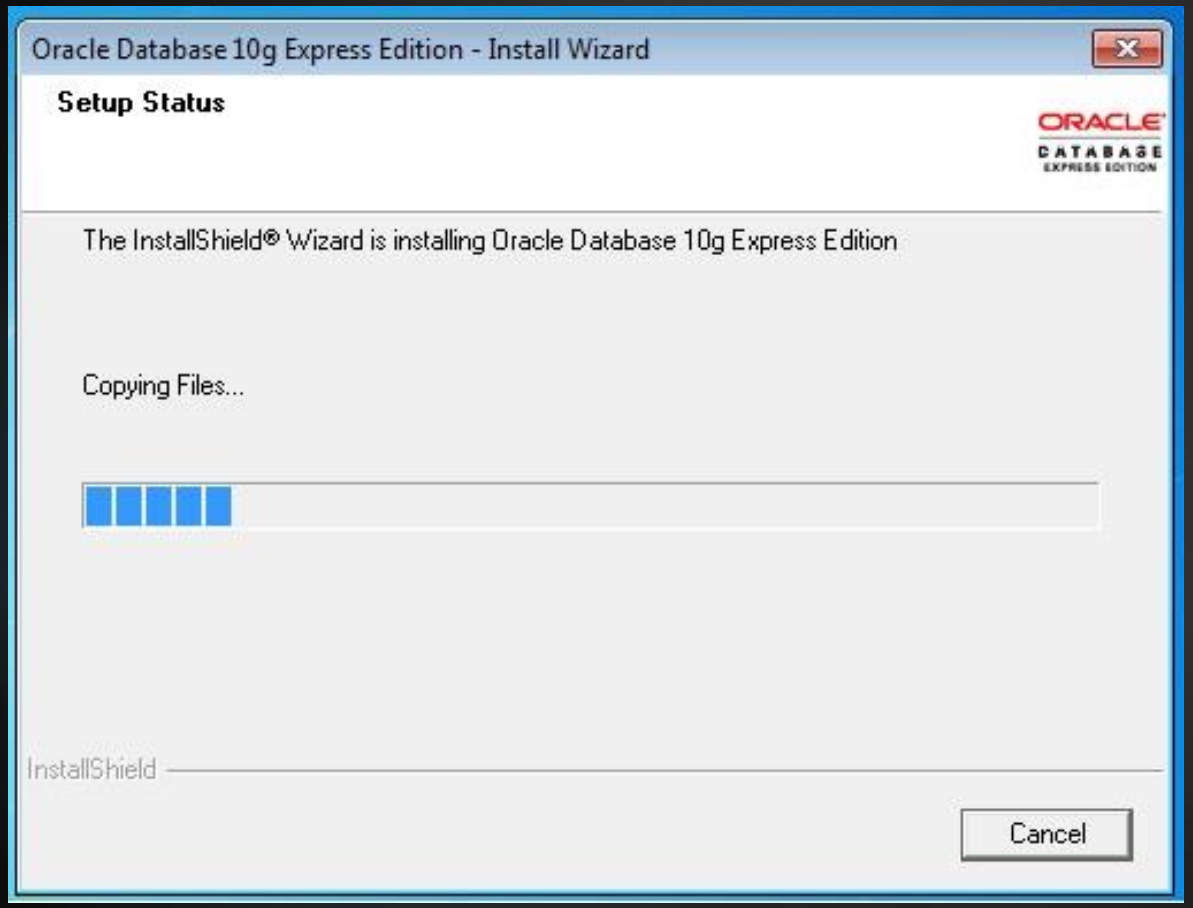
- After pressing few “Next”s the following page appears.
- Give a password which you have to remember.
- Press Next.



Step 4:

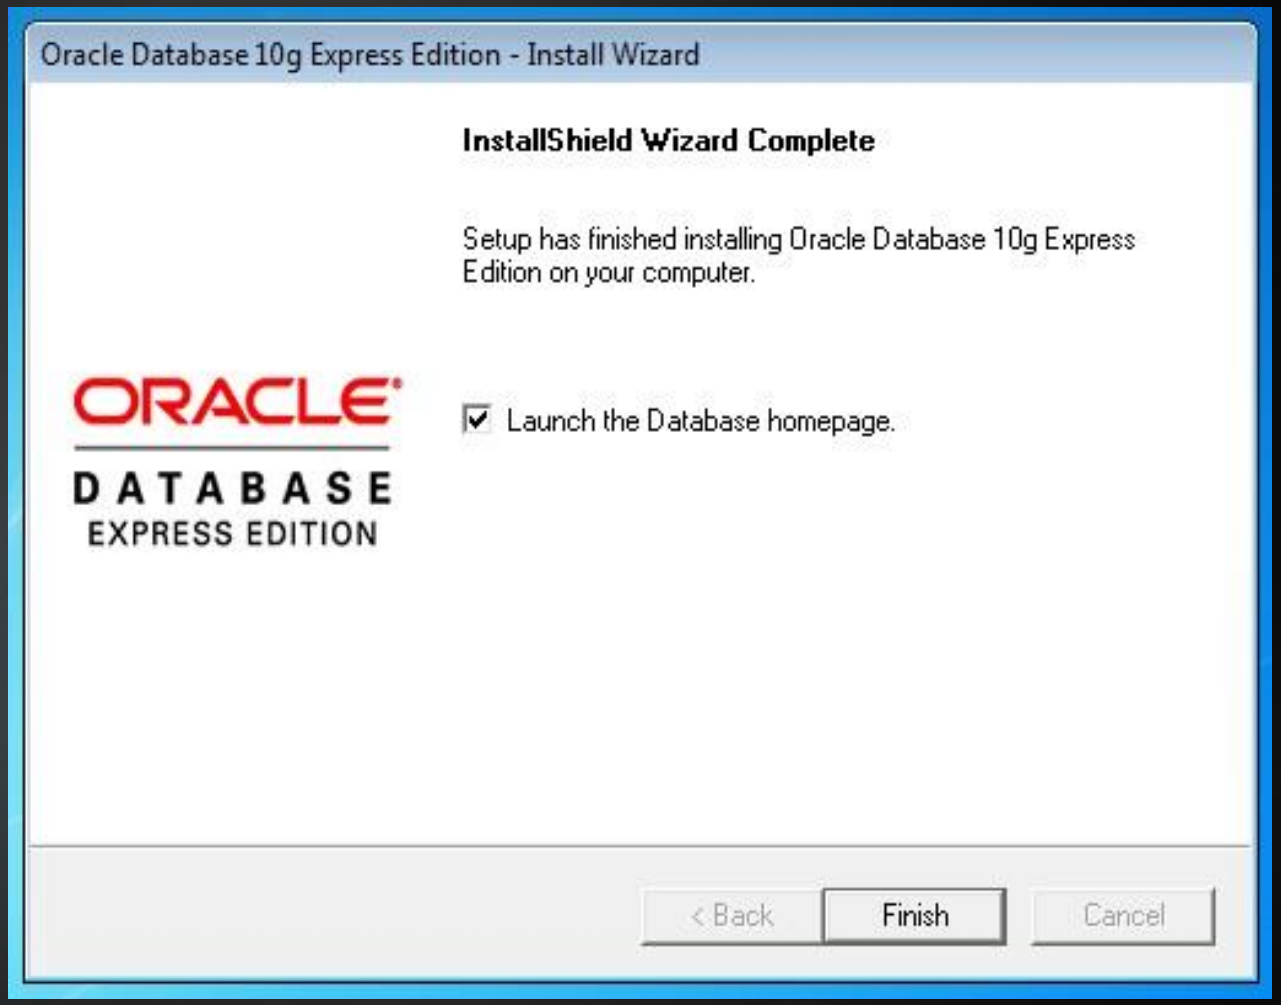
"You usually have to wait for that which is worth waiting for"

– Craig Bruce



Step 5:

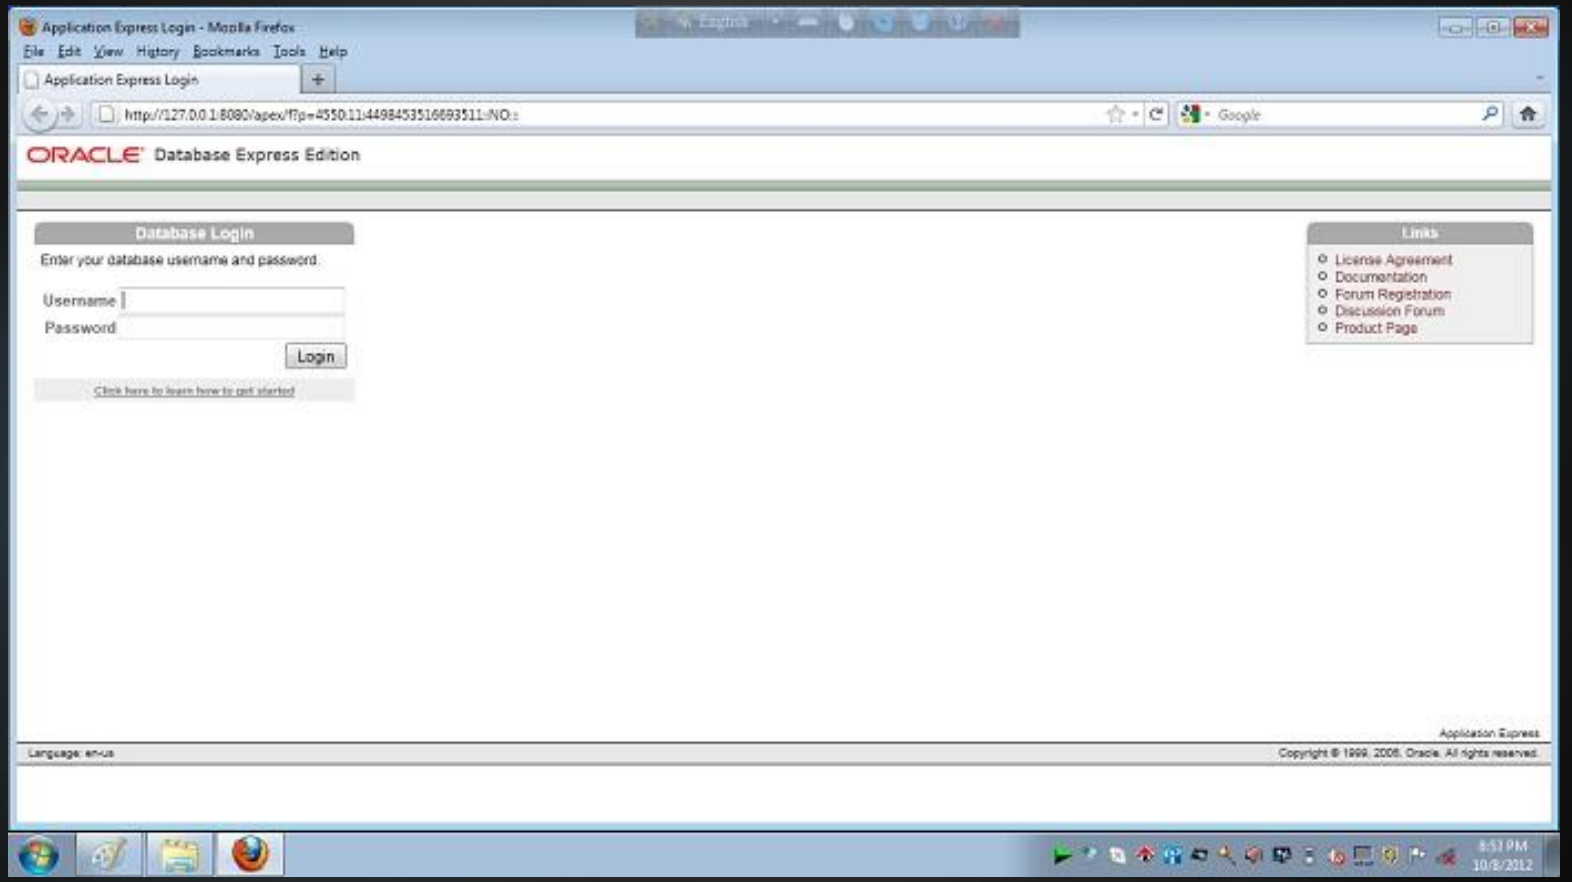
- Click Finish



NOT SURE IF PEOPLE ARE FINISHING
OR JUST GIVING UP BEFORE ME

Step 6:

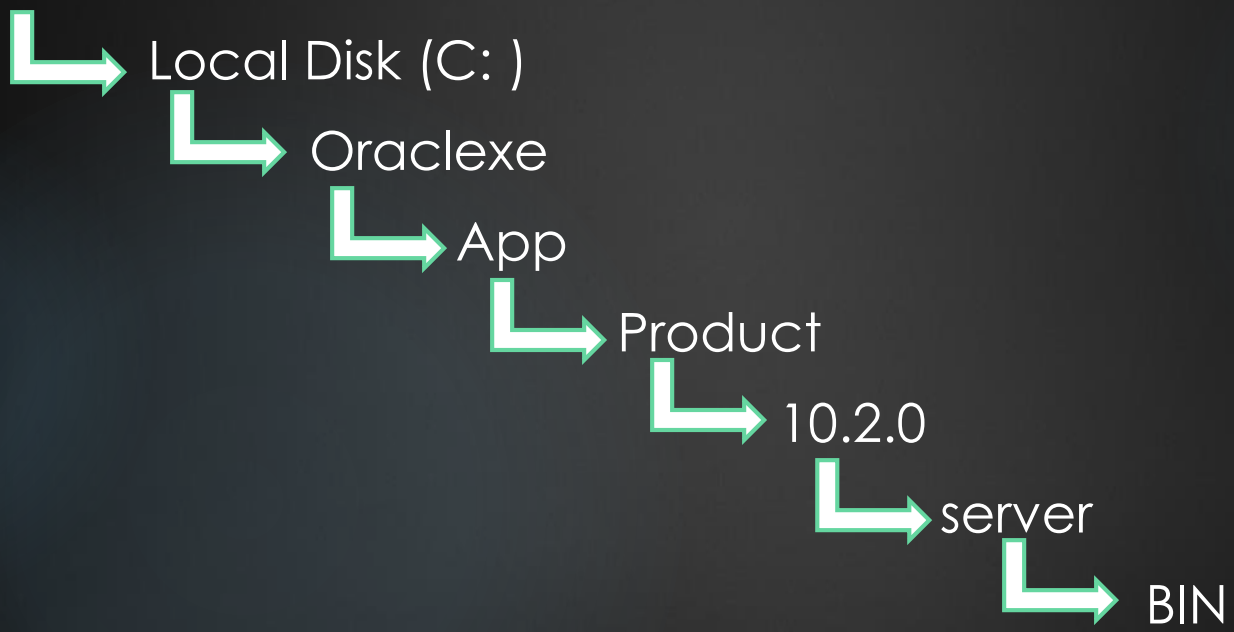
- We do not need this. Close it.



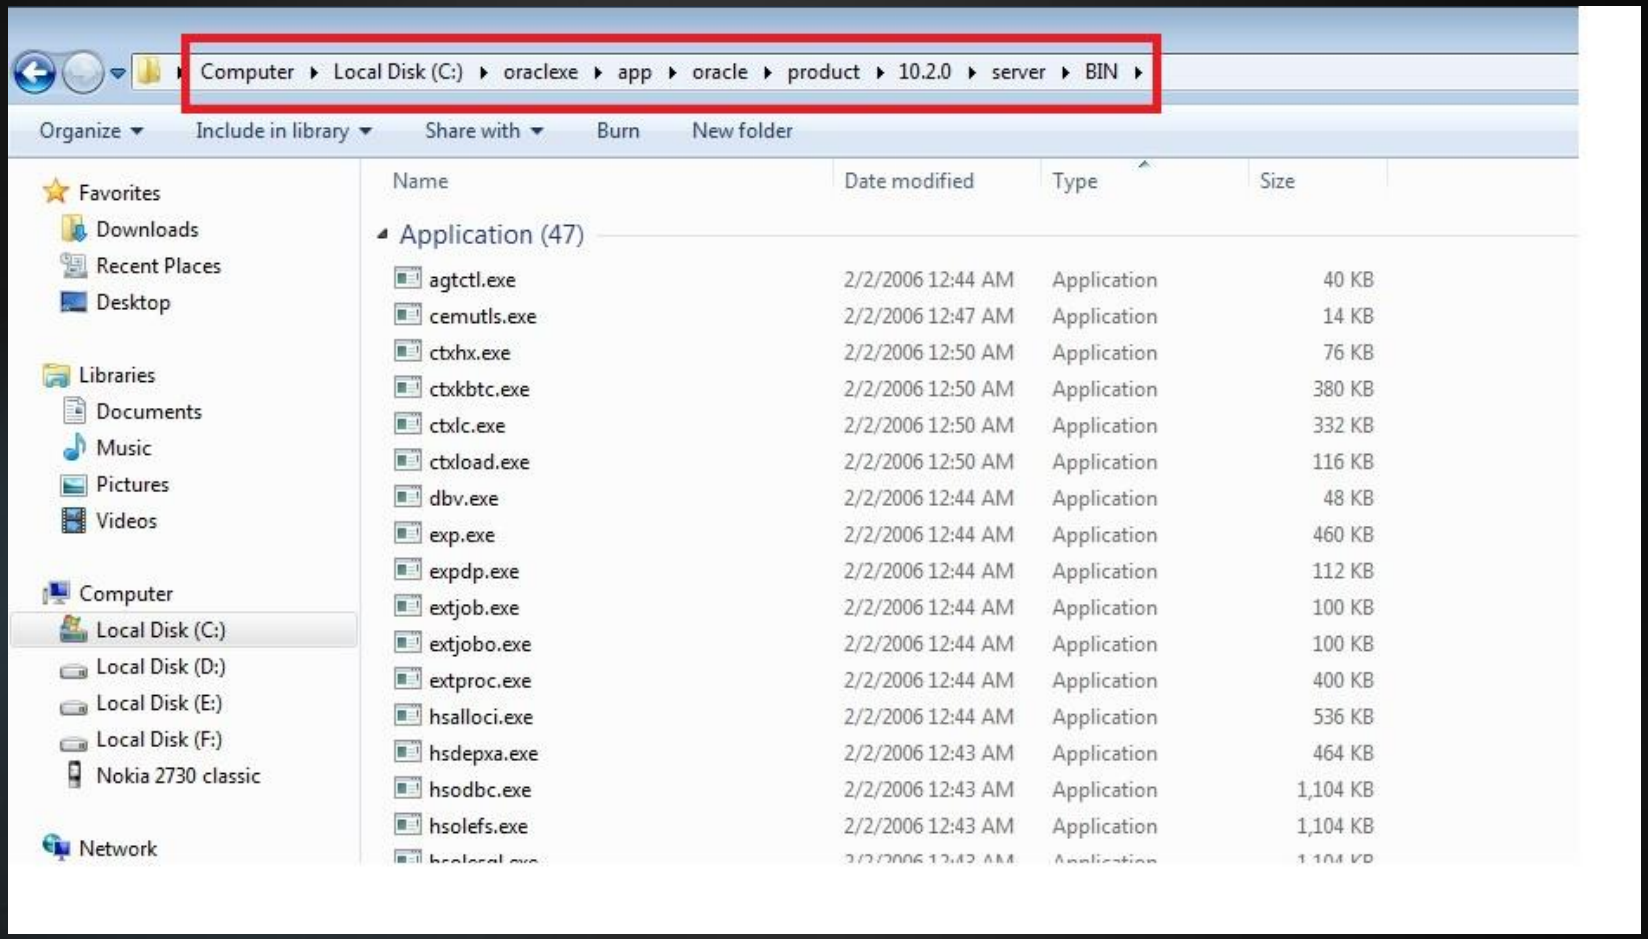
Step 7:

Go to

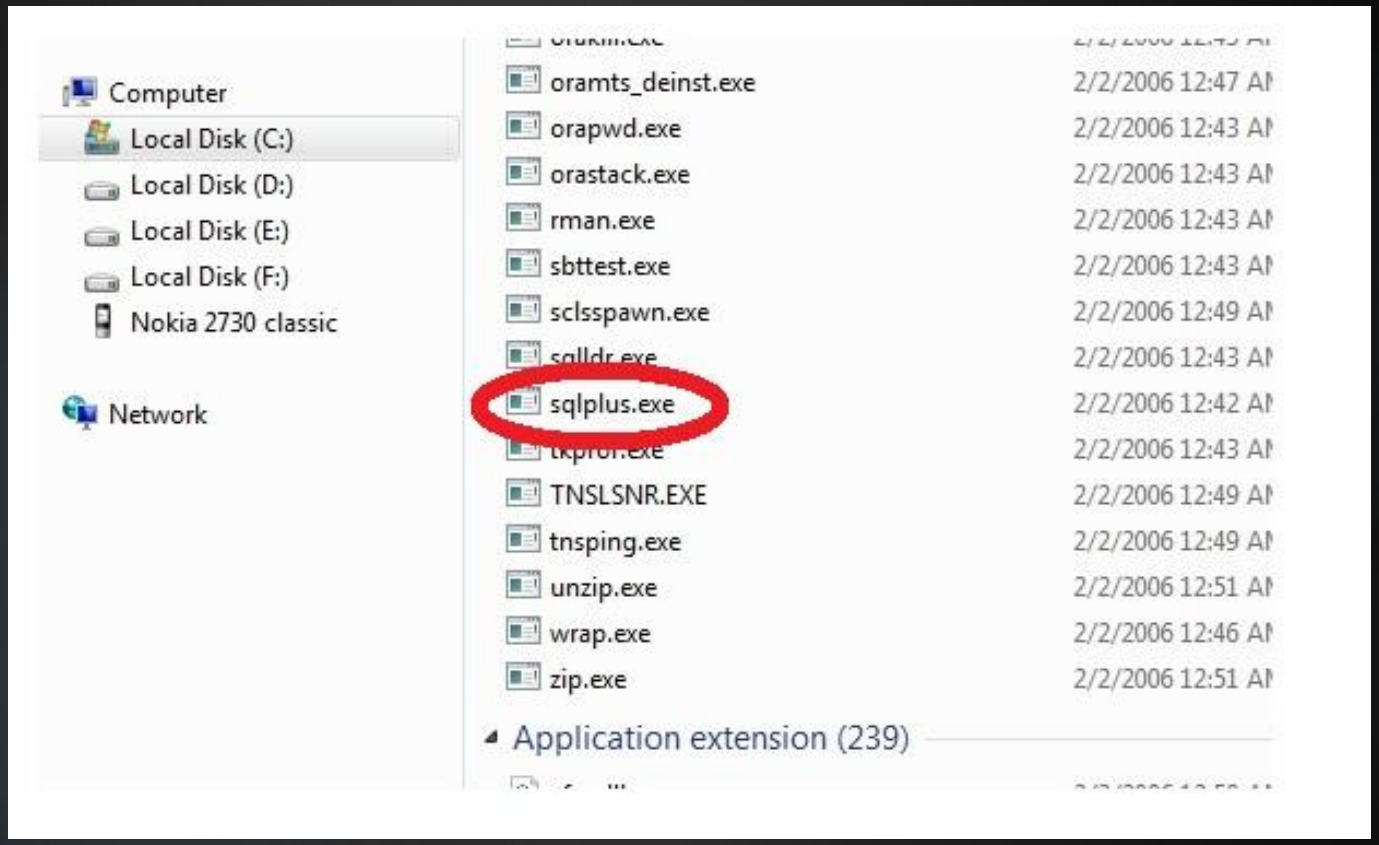
This PC/ Computer



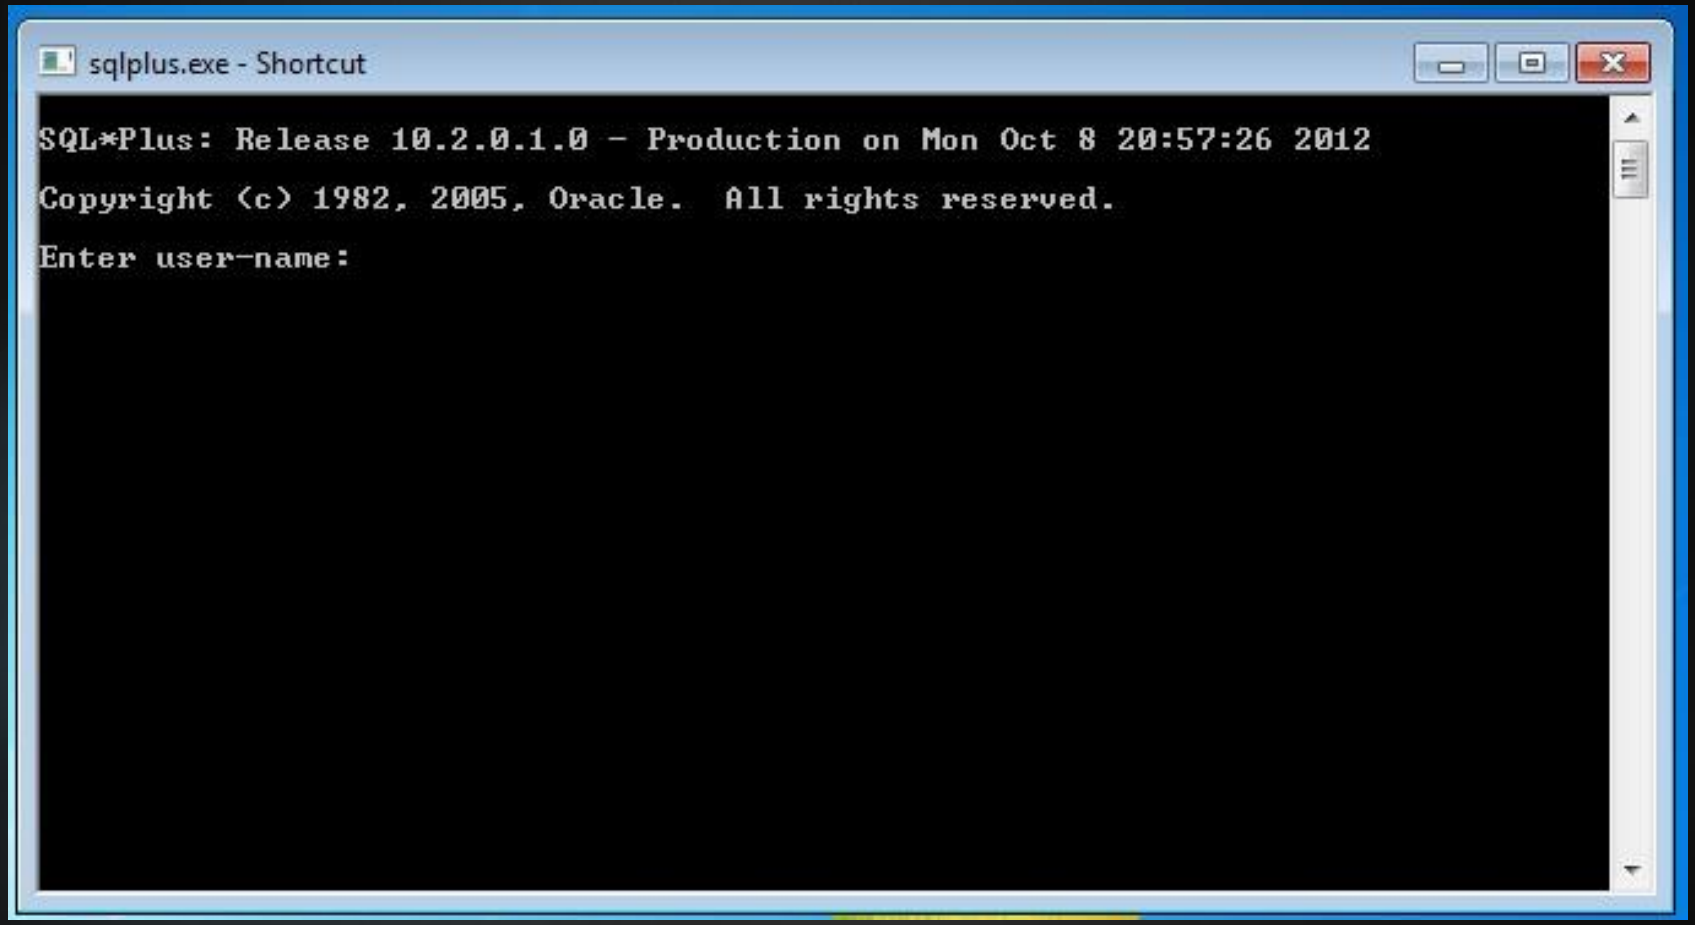
Step 7 will look like this →



Find “ sqlplus.exe “ and run it.



We will be working here !



- Use -

Username = system

Password = (the password you gave during installation)
